EXPERIENCE

Backend Developer Intern	Nov 28, 2024 – Jan 28, 2025
<i>Oxford College of Engineering and Management, Chitwan, Nepal</i>	

- Built and managed APIs using PHP and Laravel for better backend performance.
- Implemented backend logic for features like user authentication and data processing.
- Worked with MySQL to store and manage data efficiently.
- Teamed up with frontend developers to connect the backend and frontend smoothly.

PROJECTS

Oxford Blog Project - Laravel | MySQL | React

Developed a blog management system with features for user blog submission, admin review, and publishing. Extended the system to support journal publication, simplifying article collection, review, and publication workflows for the institution.

eAttendance System - Blade (Frontend) | Laravel (Backend) | MySQL | NFC Integration

Developed a smart attendance management system featuring NFC scanning for student check-ins. Used Laravel for backend logic and Blade for frontend rendering. Streamlined attendance tracking and improved data accuracy for educational institutions.

Aabhaa Agricultural App – Android (Frontend) | Java (Backend) | Firebase | WorkManager

Developed a farmer-focused mobile application with integrated chat system, push notifications, task calendar, and automated reminders using WorkManager. Leveraged Firebase for real-time synchronization, enhancing task management and user engagement.
